1. Maschinensfabrik J.M. Voith in St. Poelten is building water turbines of 2,000 h.p. to 3,000 h.p. for Yugoslavia. Payment is probably in dollars. The former Soviet director of Voith, Hublo, was transferred to the Vienna USIA headquarters, replacing Utkin as chief of the Machine Building Industry Section. The present Soviet director is Szlarin (Comment: Possibly Sagarin). The disposition of Utkin is unknown.
2. Production at the Inzersdorfer Ziegelwerke (Comment: This plant has not been further identified) totals about 100,000 tiles daily. About one-half of the production is used in Austria. The other half goes to USIA and is probably routed direct to Moscow.
3. USIA is selling about 200 metric tons of scrap iron to Switzerland through the Mitterbacher und Wagner firm. The scrap is from the dismantled Malinovsky Bridge, formerly Floridsdorf Bridge.
4. Siemens-Schuckert in Vienna, whose production had suffered a sharp reduction because of a copper wire shortage, has recently started to produce its own wire by importing raw copper from Yugoslavia, Czechoslovakia, and a small quantity from Hungary.
